## ProKitchen ONLINE

BIGGER THAN THE CLOUD

### ProKitchen Online

Say hello to Instant Catalog Technology and goodbye to Cloud Catalog Updates. Take your designs wherever the world takes you, and always work with the latest and greatest catalogs.

ProKitchen Online is a web-based software solution that gives you complete access to the entire scope of the ProKitchen Software design suite, without tying you down to a hardware key. Revolutionize the way you do business by transforming any computer into your personal design studio with the click of a button.

# Say goodbye to boring Cloud Catalog Updates.

## Let the sun shine in with ProKitchen's Instant Catalog Technology!

### Get ready to meet the new industry standard.

Kitchen & bath design professionals shouldn't have to wait for program downloads, installations, or tedious catalog updates. They shouldn't be tethered to one computer or one office location. Convenience is key, and we get that.

ProKitchen Online brings mobility and flexibility to an industry that refuses to sit still. Designers are able to log in to ProKitchen Online from any computer, in any location, and access a full suite of professional design software, including hundreds of catalogs and all previously saved designs. Create and share beautiful, photo-realistic 3D renderings any time, anywhere.

### Instant Catalog Technology.

Hello Instant Catalog Technology, goodbye Cloud Catalog Updates!

You'll never have to worry about updating your catalogs again with Instant Catalog Technology for ProKitchen Online. Simply login and start designing with the most up-to-date catalogs, whenever and wherever you are.

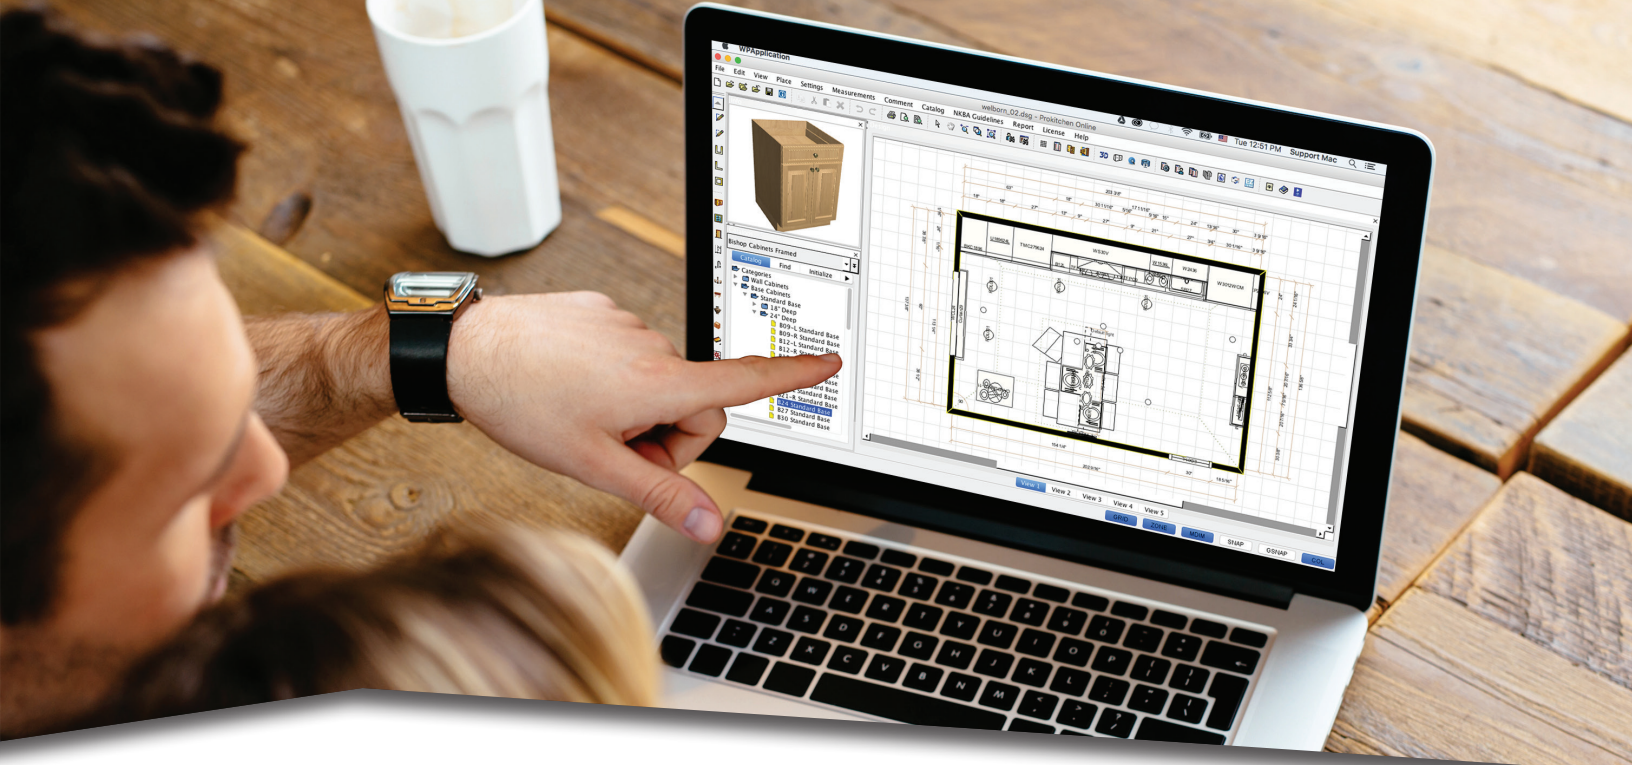

### Design at any time, anywhere.

Traveling for business or pleasure? It's never been easier to take your work with you. ProKitchen Online can be accessed from any browser, on any computer, anywhere in the world! Once you log in, you'll have access to a full suite of design tools, hundreds of manufacturer and appliance catalogs, and all of your designs saved in the Cloud.

## Work collaboratively.

We encourage designers to work collaboratively and pool their resources to create beautiful works of art. We make it easy to work together by providing design and idea sharing capabilities. With ProKitchen Online, designers can work concurrently on the same project, effectively streamlining the design process and making their creativity shine. All designs are easily accessible for designers to review, edit, and share with colleagues.

## ProKitchen Online vs. Other Cloud Solutions

Store all designs & customer information conveniently in one database

## About Real View

Founded in 1999, Real View entered the kitchen and bath market in 2006 with a professional design software solution, ProKitchen Software. With this product, Real View brought to the market a new, 3D, stable program based on Java technology, along with a simplified user interface, supported by both Mac and Windows operating systems.

With hundreds of manufacturer and appliance catalogs supported, ProKitchen's distinctive products provide opportunities for increased sales and revenue, as well as a higher level of productivity for industry professionals.

After launching ProKitchen Online, the industry's first completely web-based professional design software solution, Real View launched ProKitchen-Oculus in January 2017, a brand new tool to present your custom designs: fully immersive virtual reality.
