

Compatible with

ProKitchen Mobile Solutions

iProK3D

Share your designs with anyone, anywhere using mobile solutions from ProKitchen Software.

As the first app of its kind, iProK3D allows you to open, view and save fully-rotational, 3D designs on your smartphone or tablet. You can find iProK3D for free in the iPhone App Store and in Android Apps. Simply download, open, and start viewing full 3D designs right on your smartphone or tablet!

iPhone & iPad

1. Open the App Store
2. Search for "iProK3D"
3. Select the iProK3D app
4. Select the cloud icon above the Details button to start downloading 
5. Open iProK3D from the App Store after the download completes or from your home screen
6. Open a design and start viewing in fully-rotational 3D

Android Phones & Tablets

1. Open your preferred device's application store (i.e. Google's Play Store)
2. Search for "iProK3D"
3. Select the iProK3D app
4. Select the Install button to start downloading 
5. Open iProK3D from the store after the download completes or from your home screen or Apps folder
6. Open a design and start viewing in fully-rotational 3D
